

Maintenance Agreement

Maintenance provides trouble isolation and repair of:

- Telephone wire & jacks
- Network interface unit
- Broadband outlet
- Cable TV wiring, connectors

If you have more than one service, all services must be covered.

One service\$2.00/mo

Two services.....\$3.00/mo

Three services...\$3.50/mo

Maintenance includes determining if customer owned equipment is causing the problem. It does not cover repairing a telephone, television, computer, wiring in new locations, buried cable between buildings that was not installed by Consolidated, or mobile homes. Repair charges plus materials are billed at the current billable hourly rate if you do not have maintenance protection.

Terms and Conditions:

- Telephone Wire maintenance offers coverage per telephone line per premise. Additional lines into a residence or off premise extension must be covered by a maintenance plan, if the primary line is covered.
- The Maintenance plan will become effective on the date the signed agreement is received in the Business office. The service agreement will remain in effect for a minimum of six months. At the end of the six months, the agreement will continue until the customer requests the agreement be terminated.

I understand the terms and conditions as outlined and request wire maintenance protection be placed on my account.
